

**Translational Neuroscience Network
Conference on Alzheimer's disease and related disorders**
Amsterdam, VU University,
October 10-11, 2013
Website: www.tn2.eu

Dear all,

We cordially invite you to join us at the first conference on Alzheimer's disease and related disorders organized within the framework of the Translational Neuroscience Network (TN2). Website: www.tn2.eu

Venue: Amsterdam, VU University, October 10-11, 2013

The aim of this conference is to bring together the Dutch Alzheimer research community and bridge the gap between fundamental and clinical research. During this conference, important topics in the centre of attention of Alzheimer research today will be highlighted and updated by invited key scientists in the field. The atmosphere for discussion is anticipated to be informal and lively, with ample opportunities for forming new collaborations and relationships within the Dutch Alzheimer's disease scientific community.

The TN2 conference on Alzheimer's disease will bring together students, PhD students, post-docs, principal investigators and clinicians involved in all aspects of translational research, from fundamental to clinical research. There will be ample opportunity to present your data, either through selected oral presentation or poster. The Scientific Advisory Board will select from uploaded abstracts by theme. The submitter of the chosen abstracts will receive a personal invitation for a selected talk.

Deadline for abstract upload is August 12; 12:00 PM.

Confirmed speakers: Dominic Walsh, Ellen Nollen, John van Swieten, Mat Daemen, Elly Hol, Geert Jan Biessels, Kerensa Broersen, Marcel Verbeek and Cees Stam

We hope to see you all in Amsterdam, VU University, October 10-11, 2013

Sincerely,

Organizing committee:

Micha Wilhelmus

Jeroen Hoozemans

Anita Osinga

Arjen Brussaard

Philip Scheltens
